The only difficulty appeared to be char-of selecting the men. Every man wished to volunteer, for the life on board had naturally become somewhat monoto-nous. This, however, was impossible, and when it was learned that the Badger was to take part in the fray, Badger was to take part in the tray, and that at dawn she would be moved up to a point where she could flank the fire from the fort, those who belonged to the gun crews were consequently content to remain on board.

Night came down with its usual suddenness, followed by intense stillness. There was no wind to stir a leaf, and

"They are quiet at the fort to-night," said Fitzmorris, as Broughton, for whom he had sent, reported to him.
"Yes, sir. I think their experience last night had a soboring effect. They had no idea that this vessel was armed."
"But Cuptain Brent told that chap who came aboard that she was an American ship, and they certainly had no cause to fire on or to attack us."

WASHINGTON, D. C., April 1.—The President has pardoned W. A. Walker, convicted in the Northern District of Georgia of embezzlement of postal funds while postmastor, and sentenced on December 2, 1902, to pay a fine and to be imprisoned for six months is jail. After scattered the court suspended its execution, for the reason that the court officials believe the defendant had nothing to do with the loss of the money which occurred at the time of a fire. Nine of the jurors signed statements to the effect that they would not have found the prisoner guilty had they known the facts they have since discovered.

The President commuted, to expire today, the sentence of Edward Grant, alias Edward Guerrant, who was convicted before United States District Judge McDowell, of the Western District of Virginia, for contempt of court, and sentenced, October 9, 1902, to imprisonment for eight menths in the Washington county jall at Abingdon. The facts are briefly that Grant was a labor organizer of the United Mine Workers, and was adjudged by the court guilty of contempt in disobeying an order of the court by endeavoring to interfere with and intimidate employes in one of the coal mines.

The Attorney General recommended a commutation on the ground that the punishment of eight months' imprisonment was excessive.

"You do not know these people, sir. They need no cause to do such a thing. I heard that the general, the man that came out in the boat after you anchored, said that he was treated like a dog and insulted."

"Dogs don't get champagne to drink, as a usual thing. But go on."

"He swore," so Lissa said, "that he would have revenge."

"And who is Lissa?"

"She is the young woman that helped me to get away."

"O. I see, A dark-skinhed sweetheart!"

"Yes, sir; a brown girl I have known her for three years now almost, and she hates the blacks quite as much as I do. The black and the brown do not trust each other much in this part of the world."

"This young woman is not in the for, then. She will not be likely to be injured in the attack to-morrow morning."

"No, sir. She lives about a mile away inland. She would be glad to help us if she knew of our plans. I am not the only one that owes a debt of revenge to these fellows."

"And the brown blood is hotter than the white when it comes to that sort of thing, is it not?"

"It is, indeed. Both in love and hate it is redder and quicker. I expect that it is the tropical climate that does it, sir?"

"Yes, I think so. Now tell me, where is this landing that we are to make, as

it is requer and queeer. I expect that it is the tropical climate that does it, sir?" (Yes, I think so. Now tell me, where is this landing that we are to make, as near as you can mark it from here?" Do you get that?"

"Yes, plainly."

"Just beyond that you will see a tall palm, with banana trees below it."

"I see the palm, and will take your word for it that those are banana trees."

"Ah, well, sir, if you knew this place as well as I do, you would understand that I can point out every tree or shrub almost, up and down the harber,"

"Poor chap. I have no doubt of it! I suppose that you had nothing else to do,"

"Partly that, sir, and partly because I mada up my mind to know the whole place so well that if ever a chance came, such as this, for instance, I could guide a party to this or any spot on the bay. That I can do, no matter where you want to kind."

SEEN SERVICE IN THE PHILIPPINES

An Aged Negro Returns-His Father Was the Cook for

Joseph Lee, an ante-bellum Virginia oute to his home at Spotsylvania from has been for the past two years, serving his country in the capacity of a cool for General Chaffee and a number of army officers. Lee came in over the Atlantic Coast Line from Savannah, where he landed last Tuesday on the United States transport Sherman, which sailed from the Philippines on the 23d

of last month.

Lee, who is sixty years old, says that his father cooked for General Robert E. Lee during the war between the States. He went from this country to Porto Rico with General Chaffee, and from the Caribbean Island went to the Philippines, when the command was ordered there by the government.

The old negro says that he was to have received \$30 per month from the "mess" for his services as cook, but that General Chaffee was about the only officer that ever come up with the money at the end of the month, as a consequence of which he is broke, and needs money to reach his old home.

Lee has a very poor idea of the Filipinos, and looks upon them as a lot of heathens, who are constantly fighting, and whom the government will have should of trouble in subduing. He admits that much good has been accomplished by the United States on the islands, and says that some of the natives have professed Christfantly.

The cook regards the Philippines as remarkable, because when it is night here it is day there.
